
PROXY RETAIL

SUSTAINABILITY

Proxy Retail has dedicated a significant amount of financial resources and effort towards the development of custom workflow and field compliance software. On an annual average of over 10,000 visits to locations, each yielding an average of 10 documents, we are pleased to report that we have successfully eliminated more than 10 tons of paper waste since the implementation of this initiative. Furthermore, we have invested in state-of-the-art computer and communication technology that adhere to the latest energy star guidelines, ensuring maximum efficiency in reducing carbon emissions and energy consumption.
We are committed to exploring innovative methods to enhance efficiency while concurrently minimizing waste.
See more on Sustainability on our Website.
